You stuck a scissors in my face
in my home
then you stuck me to the wall
six hour drive to the north land
still i felt it
but i had to keep moving
party all night and sleep all day
just to party all night and sleep all day
till i get back home to the mess you made

hey wanna watch a movie and not make out?

the sheets are on the floor
your clothes are on the ground
we're dancing and i'm wishing you away

last valentines day
you didn't want to be alone
you didn't want to be alone
so i came over to pick you up
and we went out on the town
we had a couple drinks
listened to transatlanticism
swaying to the rhythm in the corner seat
i went to drop you home
you said to keep on driving
find some place to pull off
i think i'm falling in love
i think i'm starting this over

don't make a sound
don't make a sound
when we're alone together
the world just falls apart
you and me together
the world just falls apart
don't make a sound

we'll sleep when we're dead
