

They Sleep They Dream

"Would That Make U Love Me"

Visit "[Would That Make U Love Me](#)" on MotoLyrics.com

If I wasn't who I was
If I wasn't me
Would you stayed next to me in the street
If I changed my hair
Would you then be proud
If I ran out town with a different crowd

Would you be my baby, oh
If I have my money, oh
Would that make you love me, oh
Would that make you love me, oh
Would that make you love me, oh
Would that make you love me, oh

If I packed this diff and religion
If I spoke my words differently
If I change my tune to your favorite song
Would you wrap your heart around me
If I dig down to the bottom
Could you love me, unconditionally
If I sound like you, when we laugh the same
Did you mind if I hang around

Would that make you love me, oh
Would that make you love me, oh
Would that make you love me, oh
Would that make you love me, oh

I can't, make you, (repeat), love...

If I came to you from a different place
If my message finally be heard
If it's just me and you, and no one else
Would you see how much we're the same

Would you be my lover, oh
If I where different color, oh
Could you be my brother, oh
Would that make you love me, oh (11 x)
