

Thicke "Cherry Blue Skies"

Visit "[Cherry Blue Skies](#)" on MotoLyrics.com

White man's killin' the black man
Black mans chasing the red
War in these streets
No talkin' 'bout peace

The days off the leach, under pressure
All of this violence and hate
Crime is rising
The world ain't the same as it was

But it's never too late to try
To get on the same side
Get on the same side
It's cherry blue skies
Where there's cherry blue skies

Everything's a struggle
But freedoms worth a fight
And love is still
The consumer at all times

Your friends and lovers
Your sisters and brothers
All love the same from the moon

But it's never too late to try
To get on the same side
Get on the same side
It's cherry blue skies
Where there's cherry blue skies

It's never gonna be to late to try
A place where there's hope
A place where there's peace
It's never to late to try
For the cherry blue skies
