### "Baby Face"

Put up, baby face  
I love your lipstick, baby face,  
It makes me all shades of red  
Give me wild while you do to me one,  
Make me hot when I should be sleeping in my bed  
I love your big eyes, baby face,  
They seem to suggest much more than you say  
I love the mark in your secret place, oow baby face  
Love is like a peppermint machine, that's green, it's  
green  
I love your hair down, baby face,  
And I can picture ya as you do, oow, with your fingers  
running through  
I love ya, baby face,  
The way you bite your lips, ooo...ow!  
How 'bout (the) baby face? {repeat 17 times}
