And what the fuck do I have left?
I gave it all away for this
And I won't kick what I can't kick
Summers enough to make me slip
The poster boy for what you want
So All American
Give me that blue sky blonde and let me kiss the world

Ups and downs falling outs all around
Shaking now with the sound
I'm taking off for one more round
Watch me sigh and slide it off to only pull me back
around
Run with whole hearted fear of more as pavement rips
and roars aloud

I'm giving all my words in hopes you understand
There's nothing letting worse than warmth get out of
hand
Here's a glimpse of this fever that's been sweeping
over me
Sickness of snow white rush breathe in that diamond
crush

Ups and downs falling outs all around
Shaking now with the sound
I'm taking off for one more round
Watch me sigh and slide it off to only pull me back
around
Run with whole hearted fear of more as pavement rips
and roars aloud

As of right now I'm sitting in this town maybe I'll stray
and shake
Now let me think myself away

Ups and downs falling outs all around
Shaking now with the sound
I'm taking off for one more round
Watch me sigh and slide it off to only pull me back
around
Run with whole hearted fear of more as pavement rips

and roars aloud

Ups and downs falling outs all around
Shaking now with the sound
I'm taking off for one more round amen
