And I've got some things to get off my chest before  
My tongue and cheeks explode all over the desk  
And maybe I'm not a wreck  
I'm just happy to be home.

Don't you think I look dashing  
Quite smashing my outfit is matching  
And I've got all the right moves  
Good from night until noon.

When you walk through that door  
I'll make your knees shiver  
It's only one shot to make things right  
When I do we'll be up all night  
'Cause I have this tendency  
I constantly outdo me.

Don't you think I look dashing  
Quite smashing my outfit is matching  
And I've got all the right moves  
Good from night until noon.

When you walk through that door  
I'll make your knees shiver  
It's only one shot to make things right  
When I do we'll be up all night  
'Cause I have this tendency  
I constantly outdo me.

Don't you think I look dashing  
Quite smashing my outfit is matching  
And I've got all the right moves  
Good from night until noon.

When you walk through that door  
I'll make your knees shiver.
