The sacred heart is bleeding  
Go tell the Holy Ghost  
That the junkie is still cheating  
To get the thing he needs the most

Lady Luck has got me covered  
Keeping her watchful eyes over me  
The lovers are discovered  
The charge is first degree

Angel, she's a killer  
She's just flown in from the coast  
Makes the hit, it's a winner  
Leaves you dead as the post

Then Sally took to playing poker  
The joker is her favorite card  
And The drunk he can't stay sober  
He says it's oh, much too hard, it's much too hard

Meantime something seedy  
Was happening across the hall  
Someone seemed to be groaning  
You could hear it through the wall

And the cops they came like lightning  
The bullets flew astray  
And the noise it was frightening  
But the crook he got away
