How 'bout the baby face?

I love your lipstick, baby face  
It makes me all shades of red  
Give me wild while your doing me love

Make me hot when I should be sleeping in my bed

I love your big eyes, baby face  
They seem to suggest much more than you say  
I love the mark in your secret place, ooo, baby face

Love is like a peppermint machine, that's green, it's  
green

I love your hair down, baby face  
And I can picture ya as you do, ooo, with your fingers  
running through  
I love ya, baby face  
The way you bite your lips, ooo, ooo

How 'bout the baby face?  
How 'bout the baby face?  
How 'bout the baby face?

...
