There is a demon among us
Whose soul belongs in hell
Sent here to redeem us
And he knows it all too well

He comes and goes, he comes and goes
And he knows it all too well
But when all is said and done
The sun goes down, the sun goes down
The sun goes down, the sun goes down

And she tries her best to leave him
But she is still captured by his spell
And she knows now she must deceive him
And he knows it all too well

She comes and goes, she comes and goes
And he knows it all too well
But when all is said and done
The sun goes down, the sun goes down
The sun goes down, the sun goes down

He comes and goes, he comes and goes
And he knows it all too well
Oh when all is said and done
The sun goes down, the sun goes down
The sun goes down

There is a demon within us
Whose soul belongs in hell
Won't someone save us [Incomprehensible]
And I know him too well

And I know him too well
I know him too well
And I know him too well
