Can)

I'm in love with my girl now, she's away
Maybe I'll move on, maybe I'll move on, man
Need your help, I need your love today

CHORUS

Walked a little while now I can see
Now it's you in love with me
You made a believer out of me, babe
You made a believer out of me
Do right, you do right
When they ask what's wrong you say okay
I'm in love with a girl who's gone away
Maybe I'll move on, maybe I'll move on, man
Need your help, I need your love today

CHORUS

Maybe I'll move on, maybe I'll move on, man
I'm in love with a girl, she waits at the end
I drive me 24 hours a day
Once I was blind now I can see

CHORUS

Need you, need you tonight girl
You do, you do right
I was blind but now I see
Well they say what's wrong, I say hey okay
I'm in love with my girl but she's away
Need your help, need your love today
I say your love right away

CHORUS

I've got a girl and she's sweet
I've got a girl, you know what I mean

CHORUS
