

Thine Eyes Bleed "Cold Victim"

Visit "[Cold Victim](#)" on MotoLyrics.com

So unashamed of your solution
Trapped only fooling yourself
As my existence offends you

Immortal mind of weakness
Frozen until death do us apart
You fuckin tore me to pieces

Internal rage boils strong
Blood drained veins are left to heal
Your silent breath speaks louder than words
Release my soul of misery
Ever lost love infects with ease
Now tears of blood left rising for you

Challenge the soul of the dead
Cold victim caught in your head
Still drowning in your passion
Put my fist through the wall
With no one to break my fall
My eyes will bleed tonight

You're only fooling yourself
It's much deeper then pain
A sudden shiver of weakness
You fucking tore me to pieces
