You can scream all you want to scream  
And it's cold every one has left with me  
Your last breath isn't what it could be  
Now I burn apart every last memory  
Suddenly the innocent will control  
By your need for pain  
Why live to die  
I walk alone tonight  
Without a trace I'll make sure your in sight  
To die, to live a familiar fright  
Every word shadows deeper  
The night is young hold your head up high  
They will come before you say

Live to die  
Without memory  
Face of evill  
Some how so empty  
Live to die  
Someone please save me  
Face of evil  
Some how reflects me  
Live to die  
Left so empty  
Face of evil  
Someone please save me  
And you'll scream all you want to scream  
And it's cold everyone has left with me  
You last breath exactly what it should be  
Now I tare apart everything you gave to me

Suddenly the innocent has your soul  
There's no need for pain

And I'm set free from the fury we were sent unhappy  
Light the fire, bring the pain  
Somehow you enrage me  
Now take life in your hands  
To hold all that is real  
You'll find me in your dreams  
As you look for me you'll be sorry  
That you couldn't live and let it go

And now your sorry  
Remember how you hurt me  
And now I'm sorry
