

Thine Eyes Bleed "Lucky Time"

Visit "[Lucky Time](#)" on MotoLyrics.com

Mathematics thermostatics we are on an endless line
Toxic station radiations signs of our lucky time

...and the beat goes on move on... last night the dj
saved my life

Politicians exhibitions deconstructed art-design
Fighting children sex with children I will rave until the
time
Hospitals with genius surgeons genius like genocide
Videodrome was not a vision dj kicks are good tonight

...and the beat goes on move on... last night the dj
saved my life

Moving faster moving louder day and night my head
divides
Suck on e and suck on that love these many coloured
lights

...and the beat goes on move on... last night the dj
saved my life
