Gangbanging in l.a. is where you stay
I ask you is this reality
With guns with hate with stupidity
Corruption hangs up with authority
Reality - authority - stupidity - never been...
The more you suffer and the more than I can rhyme
This is the feeling let god still be blind
I want to know I want to know with my stupidity
I want to know is this your reality?
Every second of my life I'll be confused
These assholes goin' their way only to choose
Let it loose let it be be unpolite
Be ruder than the fuckin'...
Reality - authority - stupidity - never been...
Reality...
Stupidity...
Never been...
I pray to money because you still pray to the lord
I almost prayed when I want to change my world
Conflicts of the world are not my sign
This is reality or we will be divine
Gangbanging in l.a. is where you stay
I ask you is this reality
With guns with hate with stupidity
Corruption hangs up with authority
Reality - authority - stupidity - never been...
