Call me insane without a brain nude assassin go to hell  
Call me insane without a brain nude assassin go to hell  
What's beside the border?  
Nothing like bad taste  
Open minded shit  
Body terrorism  
Numb legs  
Wrong freedom  
Creased reality  
Head smog  
Call me insane without a brain nude assassin go to hell  
Call me insane without a brain nude assassin go to hell  
Go to hell go to hell go to hell  
Nothing like old bodies save me...  
Nothing like old bodies save me...  
Call me insane without a brain nude assassin go to hell  
Call me insane without a brain nude assassin go to hell  
Go to hell go to hell go to hell
