

Thine Eyes Bleed

"Thank You All"

Ready or not well here we go
Giving all we got like it's all our show
Cause I guess you'll never know what's gonna happen
In the sunshine or driving rain,
Hit the ground running like a big 'ol train
Cause we don't know when we're comin' back again

Thank you all for the good times that you bring
For the songs sound much better when you sing
Thank you all most of all for listening
So this song says thank you all

Ready or not well here we go
Where are we headed I don't know
Could tomorrow be as good as it was today?
Riding in a bus down the interstate
Got another show in another place
But we won't forget you when we've gone away

When all is said and done
And all the lights are faded,
We'll thank the Lord above for this moment
