

Thine Eyes Bleed "The Mouth Of Hell"

Ride to the sabbath
Digest your sins
The night is here to keep us alive
Never seen the hidden light calling of the Antichrist
We'll wait in fear until crucified
This is the mouth of hell
Lead the fall
The absence of time calling the parade
The fear of the inner demon weighs more than my life
This is the mouth of hell
Where you never stop sinning
Lean into the wind
Let go of your soul
Ride to the sabbath
Digest your sins
The night is here to keep us alive
Never seen the hidden light calling of the Antichrist
We'll wait in fear until crucified
This is the mouth of hell
And we beg to meet the unknown
Cross the paths of your inner soul
Sink your teeth into your demon
This is the mouth of hell
