

Thine Eyes Bleed "Truth In Evil"

Infected with mind control
A function to identify
Escape the serpent eye
Watching those who choose to deny
Truth be told cast it in stone
Separate this disguise
Fortune lost constrained to survive
Truth be told
The truth is a lie
Inflicted torment
All of which we held so true
Never cease to detect what the unknown will protect
A simulated conviction what is real initiate what we
cannot heal
Pull the plug
Feed the masses
Control the paranoid
Conducted actions under the spotlight we've lost our
souls
Numb to the world
Feeling content
Dreaming into the unknown
Superior to all that I know
Lacerating thoughts flow
Showering like razors
Transgress in the mind
Lachrymal and undivine
Staring into oblivion
