That woman, she's ruining your view
Her image means much more than you do
She's faking her story and her class
She's shady, like a snake in the grass
Don't cheat yourself
Don't blame yourslef
You've got something greater than anyone else.
Don't cheat yourself
Don't blame yourslef
You've got will-power
Go steady don't fall for cheap temptation
Get ready to use your big ideas
Some people just talk but have no skill
You are different, your confidence is real.
Don't cheat yourself
Don't blame yourslef
You've got something greater than anyone else.
Don't cheat yourself
Don't blame yourslef
You've got will-power
Will-power -- don't give in.
