Sit back and relax

Sit back and relax, you're watching television in superb stereo

Well it's an interview but it's a second take

There's a questioner but your mind's at stake

It's a room designed for propaganda's sake

He's a rich man now, there's no escape (Sit back)

You can't take it where you're going, you can't take

things where you are, you can't take 'em with you

You can't take it where you're going, you can't take

things where you are, you can't take 'em with you

Let's break down the formula

Let's switch off the set

Let's break down the formula

Let's switch off the set and be glad we finally met

I could crash my car through your screen

I could take a match to your empire

And teach you how to dream, how to dream (?), how to dream (?), how to dream (?)

You open the door let me into your house

You show me how you cry, you tell me how you scream

and how you watch when you're alone

You can't take it where you're going, you can't take

things where you are, you can't take 'em with you

(Sit back and relax)

You can't take it where you're going, you can't take

things where you are, you can't take 'em with you

Let's break down the formula

Let's switch off the set

Let's break down the formula

Let's switch off the set and be glad we finally met

Let's break down the formula (You can't take it where

you're going, you can't take things where you are)

Let's switch off the set (You can't take 'em with you)

Let's break down the formula (You can't take it where

you're going, you can't take things where you are)

Let's switch off the set (You can't take 'em with you)

Let's break down the formula

Let's switch off the set (You can choose any channel from your chair)

Let's break down the formula  
Let's switch off the set (But I've got a better idea, tear  
up the guide, rip down the aerial)  
You can't take it where you're going, you can't take  
things where you are, you can't take 'em with you  
You can't take it where you're going, you can't take  
things where you are, you can't take 'em with you  
Let's play real life, real life instead  
Let's play real life, real life instead  
Let's play real life, real life instead  
Let's play real life, real life instead  
Let's play real life, real life instead  
Let's play real life

Let's break down the formula  
Let's switch off the set

(Relax) Let's break down the formula

Let's play real life

(Sit back and relax) (Real life) You can't take it where  
you're going, you can't take things where you are, you  
can't take 'em with you (Let's switch off the set) (Real  
life) Take things where you are (Instead)? (Let's play)  
(Sit back and relax) Real life (Let's break down the  
formula) You can't take it where you're going, you can't
