All I want right now is the time
Where we slept on the floor
You said, "Right here, right now
Is all that we're living for"

I got the velocity
And all I need now is the mass
I just want you to ask

Can you take me into days I never knew?
Let's start a riot, let's start a riot, me and you
'Cause a riot's overdue

Now these days I wonder
Why we're holding back on bliss
You blast from me everything you see
I just wanna give you a kiss

I want the infidels' head on a pike
Riding on my motorbike
Oh, you and me are alike

So can you take me into days I never knew?
Let's start a riot, let's start a riot, me and you
'Cause a riot's overdue

Let's get it bigger and wider
I'm the mega collider

When I take you into days I never knew
Let's start a riot, let's start a riot, me and you
'Cause a riot's overdue

Bust you out, I've come to bust you out
I've come to bust you out, I've come
Live in doubt, no longer live in doubt
No longer live in doubt, no

Humbly now, oh yes humbly now
I ask for no resistance, oh, no resistance
Maybe now, oh, just maybe now
We can bridge the distance

'Cause it's so, it's so big, big

Into days I never knew

Let's start a riot, let's start a riot, me and you

'Cause a riot's overdue

Don't back down, don't compromise

Don't close your eyes, here it is, do or die

And you still believe the lie

You still believe the lie

And the world is for the meek

And this mouse is gonna squeak

I am dying to be freaked

Yes, I am dying to be freaked
