When we met, light was shed thoughts free flow  
You said, "You've got something deep inside of you"  
A wind chime voice sounds  
Sway of your hips 'round rings true, it goes deep inside  
of you

These secret garden beams  
Change my life so it seems

A fall breeze blows outside  
I don't break stride thoughts are warm  
And they go deep inside of you, oh yeah

I had never felt alone, alright  
Oh, oh till I met you

Friends say I've changed, I don't listen  
'Cause I live to be, deep inside of you  
Slide up her dress I'm seeing darkness, I'm so alive  
I'm deep inside of you

You said, "Boy made girl feel good"  
But still, deep inside, still

I never felt alone, till I met you  
I'm alright on my own and then I met you  
And I'd know what to do, if I just knew what's comin'

I would change myself if I could  
I'd walk with my people if I could find them  
And I'd say that I'm sorry to you  
I'm sorry to you

And I don't wanna call you  
But then I wanna call you  
'Cause I don't wanna crush you  
But I feel like crushing you

And it's true, I took for granted you were with me  
I breathe by your looks and you look right through me

We were broken and didn't know it

We were broken and didn't know it  
We were broken and didn't know it  
We were broken and didn't know it

Right, oh right, that's right, oh

Something's gone you withdraw  
And I'm not strong like before  
I was deep inside of you  
I can go nowhere, I burn candles and stare  
At a ghost, deep inside of you

And some great need in me  
Starts to bleed, I've lost myself  
There's nothin' left, it's all gone  
Deep inside of you

Deep inside of you, deep inside of you
