Everyone is so self righteous
Lift your head again and try this

If you want this, I do
And I want this but I can't break through
And I can see you begin to glow

Everyone is so self righteous

Get up everyone now
We're on our own now
Lift your head again try this

And feel you, I do
And I want this but I can't break through
And your burning lights red and blue

Everyone is so self righteous

Where have you sinners gone?
All you sinners
What's ours is ours
And we're all alone
Where have you sinners gone?

What's ours is ours
And outside rain

(Where have you sinners gone?)
It's just a shower
(All you sinners)
And then I feel you breathe
(Where have you sinners gone?)
And I let go of the hours
(All you sinners)
And I feel your skin
(Where have you sinners gone?)
And I let you in
(All you sinners)
And that's my dream
(Where have you sinners gone?)

Again and again
I feel the hours
Sliding by

Everyone is so self righteous

Get up on your own now
Way up all alone now
Lift your head again and try this

Do you want this, in you
You're the only thing that's real
And we don't need to beg or steal

Everyone is so self righteous
Everyone is so self righteous
