Its a sinking ship/ this thing that we call life  
The rotting core of time/ goes in a blink of an eye  
Its the broken dreams/depressing what youve become  
Its the little things/ youre gonna miss when youre gone

So long goodbyex4

So long goodbye, Im saying adios  
The clock is ticking and the curtains falling  
Blacken the sky, Im feeling comatose  
So long goodbye.

The plans that you make/ just never seemed to go  
through  
The waiting lines will take/ what little patience you have  
left to lose  
All the things you say/last words straight out the  
window  
Sealing your troubled fate/ the hanging tag on your toe  
Its all right cause I know what youre thinking  
Too late to refill, for what youre drinking

So long goodbye, a one-way ticket  
So long goodbye, you cant escape it  
So long goodbye, your thoughts are flying on by  
So long goodbye

So long goodbye, Im saying adios  
The clock is zero and your game is over  
Reset denied, youre password is no good  
So long goodbye(scream)

The thoughts are running straight on through your  
head  
Flying by like all the people said  
Its not things youve done its who you met  
And when its time nothing will be said  
The partys over, clean up the mess again  
Garbage to the curb, its the final rest  
So happy Im so gone that I love it  
Its the end in a just little bit  
In the minds of those who know the legends

So happy Im so gone

So long goodbye, Im saying adios  
The credits rolling and your name is not there  
So long goodbye, youre signing off for good  
So long goodbye
