So much for so called friends
Quitters, they never win
We know what's holding us back
(And it you, Yes it's true)

Your pride consumes your mind
You weren't that hard to find
And you weren't that hard to lose

Honestly
You can't think that
You'd repeat
Everything
Successful that you had.

Selfishly
You quit
Now I'm content
With thinking
You will quit your whole life

Now stand back
Look at this from our-side
You gave us a good sign
By leaving at the right time

We won't stand for this
We'll let you go
We'll let you go
We would die for this
We'll let you go
We'll let you go

Well when nobody wants you
We won't come looking for you
You're gone and now were moving on!
And willingly you left now
All we see is all the potential
We've gained.

I won't waste my breath over this

Please, Please spare your words and views
We only were your friends, we did nothing to you
You say that you will make it and no body believes you
You won't make it here
