Every time I chase your hips, you push me away  
Closer to your lips, I want you, do you feel the same?  
'Cause I got this feeling, I got this feeling

Oh, you do it to me, cut me off 'til I can't breathe  
If I could get next to you, inside of your heart  
Oh, you're making it hurt when I try to make it work  
If I could be close to you, inside of your heart  
You do it to me

We could be in Paris, drunk on love and champagne  
Falling for you faster, every sip I take  
'Cause I got these feelings, I've got these feelings  
You've got me dreaming, I've got these feelings

Oh, you do it to me, cut me off 'til I can't breathe  
If I could get next to you, inside of your heart  
Oh, you're making it hurt when I try to make it work  
If I could be close to you, inside of your heart  
You do it to me

I won't let you down, come with me, yeah  
I won't let you down, I've waited for you here  
You do it to me  
Waiting for you here

Oh, you do it to me, cut me off 'til I can't breathe  
If I could get next to you, inside of your heart  
Oh, you're making it hurt when I try to make it work  
If I could be close to you, inside of your heart  
You do it to me

You do it to me  
You do it to me
