You're really faithful, and I really tried  
We fit together, most of the time  
I wasn't perfect, but perfect for you  
I should've known what to do  
So I dreamed of Christmas with you

I saw the light, it was just like you said  
Your body was here, but you're miles ahead  
Imagining you was so easy to do  
So I'll dream of Christmas with you  
I'll dream of Christmas with you  
I'll dream of Christmas with you  
I'll dream of Christmas with you

Oh you, oh you, oh

Now it's been years since we said our goodbyes  
You say you're taken, and I close my eyes  
If love could be taken, I'd take it to you  
There's nothing more I can do  
I'll dream of Christmas with you  
I'll dream of Christmas with you  
I'll dream of Christmas with you  
I'll dream of Christmas with you  
I'll dream of Christmas with you
