### "Love In The Way"

Visit "[Love In The Way](#)" on MotoLyrics.com

She walks in a room, that's where it starts  
A million beats shootin', straight to the heart,  
She likes to mix it up, fast, slow, fast, slow it down  
Girls whisper, "I wonder if she gets around,"

I don't think they understand

You know you got it, got it figured out  
'Cause confidence means everything, push it all aside  
And you don't have to, you don't have to fake it,  
Something turns to nothing when your love gets in the  
way

She tried to keep it chill so I just kept my distance  
But when she went outside, she asked for some  
assistance  
And as she turned away, I turned another way,  
To say that it bothered me would be an understatement

I don't think she understands

She thinks she's got it, got it figured out  
'Cause confidence means everything, push it all aside  
And you don't have to, you don't have to fake it,  
Something turns to nothing when your love gets in the  
way

Love in the way, love in the way, she can't contain  
herself

She thinks she's got it figured out,  
'Cause confidence means everything, push it all aside  
And you don't ever have to fake it  
Something turns to nothing when your love gets in the  
way
