You were wrong about yesterday you never think
before you speak last year thinking you could be made
for me she said some
Races can't be won and so we fade with the setting of
the sun

[chorus]

And airplanes they always leave the ground with
confidence and safely coming down unlike us we
crashed and can't be found
In the movies on the big screen i'll make you mine if
this was highschool or just homecoming we'll dance all
night

Don't let that smile fade i wouldn't want to see you hurt
like i am keep the promises we made i know that this
will come
And go but she runs further, further than she knows

[chorus]

Could i have shown more teeth when i smile stood up
straight when you called my name kissed you with my
eyes closed i'm
Lost i'll find my way

In the movies on the big screen i'll make you mine
If this was highschool or just homecoming we'll dance
all night in the movies on the big screen
This isn't highschool or homecoming lets say
goodnight
