### "Some Nights Just Feel Right"

Visit "[Some Nights Just Feel Right](#)" on [MotoLyrics.com](http://MotoLyrics.com)

On the night we met,  
Kickin' in the Georgia blue.  
You were standing carefully,  
Hoping nobody would notice you.

You had your hair down low,  
I couldn't look away.  
I could feel the heat in your eyes  
So cute and you were taken by surprise.

And who would've guessed  
A night like this  
Would last forever in our minds?  
This town will come alive.

I don't care what they say,  
Don't care how long it takes,  
We're gonna make this work.  
(If there's just one thing that's true,  
Let it be you)  
I don't care about nights or days:  
I'll cover the clock to find a way  
I'm gonna make this work.  
(Oh Georgia, sweet Georgia, please)

We had it so alive in the water,  
In the house that night.  
Through the crowds and the people  
We found some hope to make the moment right.  
We were trying hard,  
Not knowing what to say.  
I could feel the heat in your eyes:  
So cute and never ready for goodbye.

And who would've guessed  
A night like this  
Would last forever in our minds?  
This town will come alive.

I don't care what they say,  
Don't care how long it takes,

We're gonna make this work.  
(If there's just one thing that's true,  
Let it be you)  
I don't care about nights or days:  
I'll cover the clock to find a way  
I'm gonna make this work.  
(Oh Georgia, sweet Georgia, please)

I see your dark eyes  
In the question on our mind.  
I was trying hard to make it clear,  
Just to make it,  
Trying hard to make it right.

I see your dark eyes  
In the question on our mind.  
I was trying hard to make it clear,  
Just to make it,  
Just to make it right.

I see your dark eyes  
In the question on our mind.  
I was trying hard to make it clear,  
Just to make it right.

I don't care what they say,  
Don't care how long it takes,  
We're gonna make this work  
(If there's just one thing that's true,  
Let it be you)  
I don't care about nights or days:  
I'll cover the clock to find a way  
I'm gonna make this work.  
(Oh Georgia, sweet Georgia, please)
