If you go i'll wait for you, if you go i'll wait for you

[chorus]

You wouldn't drive without a key you can't live if you  
don't bleed you try to run but there's no peace without  
me you

Wouldn't drive without a key and i miss you since you  
left me you try to run without me

If you go i'll wait for you, if you go i'll wait for you i know  
that you will wish i was there some day, some day,  
some

Way wishing i knew your every care some day, some  
day, some way

[chorus]

Paint the wall your favorite shade of blue i hope all your  
dreams come true and i will be renew and i won't waste  
your

Time anymore finally put a lock on our closed door and  
you will not break through and we'll try to put smiles on  
our face

And see who is the quickest to replace our lost and  
broken love
