Hide behind politics hide behind policy
This is the modern age so we got you on radar
Hide behind fences put up our best defenses
This is the modern age so we got you we got you
We're preserving ourselves deep down into our shells
While the swarm awaits at the from gates
Savage ... savage etiquette guarded by the cannibals
Oh how unfortunate that we've become the animals
Our eyes wont dialate beyond the peripherals
We're preserving ourselvesdeep down into our shells
(while the swarm) awaits
We all run behind white fences
And hide behind our best defenses
We hide we hide we hide
We all run and hide
