(Oh, I know)

(Oh, I know)

(Oh, I know)

I'm gonna say what I am feeling:  
You lift me out of this world.  
I hope you say what you are thinking  
Without the bottle's control.

(Oh, I know)

When I'm with you, I never felt something feel so good  
(so right)

In sun or in the moonlight

(Oh, I know)

When it's just the two of us, I never really ever wanna  
leave your side.

(Not in the days or the nights)

I'm gonna get hurt

Waiting for you to be consistent

Why don't you go?

I don't wanna waste this anymore

I've been spending too much time just waiting for you

(Too much time just waiting, waiting)

Cause you only say you love me when you're gone,

You only say that you need me when I'm movin' on.

Too much time spent waiting for you.

I'm holding on to feel some brilliance;

You never answer that call.

I'm losing faith in my resilience:

You get me high and I fall.

(Oh, I know)

When I'm with you, I never felt something feel so good  
(so right)

In sun or in the moonlight

(Oh, I know)

When it's just the two of us, I never really ever wanna  
leave your side.

(Not in the days or the nights)

It doesn't make sense  
If I keep waiting (I keep waiting for you)  
It doesn't make sense  
Don't give me lines, cause I'll resist it.

Why don't you go?  
I don't wanna waste this anymore  
I've been spending too much time just waiting for you  
(Too much time just waiting, waiting)  
Cause you only say you love me when you're gone,  
You only say that you need me when I'm movin' on.  
Too much time spent waiting for you.

(OHHH!)  
Oh my god, I can't give in or fall for that (I can't give in)  
I won't be the fool again; (won't be the fool)  
I can't take the hits. (I can't take. no, I can't take)  
I can't keep breathing, this air is deceiving  
You can't keep leading me on with your reasons  
I gave you attention, I guess that's a lesson learned.

So why don't you go?  
I don't wanna waste this anymore  
I've been spending too much time just waiting for you  
Yeah-ah

Just go  
I don't wanna waste this anymore  
I've been spending too much time just waiting for you  
(Too much time just waiting, waiting)  
Cause you only say you love me when you're gone,  
(Love is over)  
You only say that you need me when I'm movin' on.  
(If we can't spend our days together)  
Too much time spent waiting for you.  
(Love is over now)  
And I'm done waiting for you.

Oh my god, I fell again.
