"Stay Right Here"

Visit "[Stay Right Here](#)" on MotoLyrics.com

I've gotta keep this up,
Keep my eyes set on what I want
I can't stop looking at you,
Thinking of you
Thinking of you, you, you

I see your eyes in blue,
These dark lights can't hide what is true.
I can't stop looking at you,
Thinking of you
Thinking of you, you, you

But I need time
Just to find the right way to make you mine, yeah-a-hey
I need time
Just to find the right way to make you feel what I'm
feeling tonight

I've been waiting all night
To find someone to believe in something I could get
into
I've been waiting all night
To find a heart like yours.
Cause we both know we could fall for it
And it only takes a minute to stay,
So we'll stay right here
I've been waiting all night
To find a heart like yours.

Yeah, I always said that I don't need anything,
I don't need anyone
But I wonder if that ain't true.
Cause I can't stop looking at you
Thinking of you
Thinking of you, you, you

Yeah, I won't be leaving soon.
I don't have a thing to do
But find a way to be with you.
I can't stop looking at you,
Thinking of you

Thinking of you, you, you

But I need time
Just to find the right way to make you mine, yeah-a-hey
I need time
Just to find the right way to make you feel what I'm
feeling tonight

I've been waiting all night
To find someone to believe in something I could get
into
I've been waiting all night
To find a heart like yours.
Cause we both know we could fall for it
And it only takes a minute to stay,
So we'll stay right here
I've been waiting all night
To find a heart like yours.

Yeah, I always said that I don't need anyone, oh.
(Whoa-oh-oh, whoa-oh-oh)
I don't need anything.
(Whoa-oh-oh, whoa-oh-oh)

I've been waiting all night to find some peace in my life
And put some ease on a mind that's been running.
I've been waiting all night to find some peace in my life
And put some ease on a mind that's been running.

I've been waiting all night, I've been waiting all night
For you.

I've been waiting all night
To find someone to believe in something I could get
into
I've been waiting all night
To find a heart like yours.
Cause we both know we could fall for it
And it only takes a minute to stay,
So we'll stay right here
I've been waiting all night
To find a heart like yours.
Yeah.
