Runaway Raindrop
Why so many tears
There's nothing left to hold you now
And you know you can't stay here

To earth you will fall soon
And from earth you will rise
With 'No' in your mouth now
But there's 'Yes' in your eyes

The cloudbursts are behind you
And a long fall ahead alone
Oh Runaway Raindrop
You have to go home

Sometimes just for a moment, we are what we are
A bag full of second chances, overflowed and spilling
out
Down, over and around the original burying ground
Where everyone gets even and everything is as clear
as can be
Unending, unalone, into it you come and out of it you'll
go
No more running, no more becoming
It takes a flake to know one and here you are
On the edge of yourself and ready to leap
Built to last only as long as snow upon the sea

Say what you will
Say it's all a dream
But if you stay where you are now
You may never leave

It's time to surrender
It's time to awake
Waiting is for buzzards
Wolves never wait

A wolf never waits...

The closer you look
The farther it looks away

You're moving on now
And they're here to stay
