Siren with a song in your eye
Slashing through my ear like a beast
Seven times I leapt upon your shore
And every night I let you conquer me

You're my queen
You're my queen
You're my queen
You're my queen

Serpent with your blue planet eyes
Passing like a ship through my sleep
Seven times I kissed you on the mouth
And every night I let you conquer me

You're my queen
You're my queen
You're my queen
You're my queen

Queen
You're my queen
You're my queen
You're my queen

Queen
You're my queen
You're my queen
You're my queen
