

This Empty Flow "Stream"

Visit "[Stream](#)" on motolyrics.com

Cold stream of cold souls
once so warm and loved
forever gone those who meant much
for I am freezing and ice burns
seeking caresses elsewhere
for I am freezing deep

grief cuts deeper than deaths claw
a splash breaks the deafening silence

as they encounter the ground
from the widespread lake
lament echoes
tears reflect

join the sweet silence
drown to the beautiful
calm waters of my soul
embrace me till the pain fades
embrace me.
