Twisting the knife
Inside my head
How long will it take
Until I break
White cold empty room
Forced to enter
Into the walls

The rope
Slits my wrists
Is now an enemy
Voices clings

Hold your breath
The fumes
Ripped from my inner part

Nailed down
No reason to live
Nailed down
Nailed down
By fear of insanity

One
Nailed down
Reason to die
Nailed down
Cancer inside
A way of chaos

Control your breath
Control your mind
Everything taken for granted

Forced down
Blood dripping from my hands
The rope breaks my wrists

Nailed down
No reason to live
Nailed down
Nailed down

By fear of insanity

One
Nailed down
Reason to die
Nailed down
Cancer inside
A way of chaos

[Solo]

Nailed down
No reason to live
Nailed down
Nailed down
By fear of insanity

One
Nailed down
Reason to die
Nailed down
Cancer inside
A way of chaos

Nailed down
Nailed down
Nailed down
Nailed down
Within my mind

Nailed down
Nailed down
Nailed down
Drowning in chaos
Nailed
