What is this life?  
Is it just this pain?  
Are my dreams just there,  
To ensure my demise?  
No I will not  
I will burn you all  
No I will not  
I will watch you die  
I am your master  
I am above and beyond you  
I am your master  
I am the seed of destruction  
My blood seeps out  
As soon I start to heal  
Then you are there  
To kill again  
No I will not  
I will burn you all  
No I will not  
I will watch you die  
I am your master  
I am above and beyond you  
I am your master  
I am the seed of destruction  
I am your master  
I am above and beyond you  
I am your master  
I am the seed of destruction  
Master  
I am to reap what I've sown  
Master  
I am the dawning of doom
