I'm dressing up, for a let down
And leaving all the lights out, so come on and
Let it rain Champagne, and let the rest
Be only smoke and cigarettes
It's like tragic magic
The way the haze fades to grey everything that you say
What a way to blow this night away

Don't speak, don't make a sound
I know how it goes, and here it goes

Sugar sugar, whoa, you were so sweet
Remember all the things you said to me,
Hot like the Summer weather, our lips would melt
together
And every word would taste so sweet
But lately you have lost your touch
Maybe you're a sugar rush
And fast you fade away

So turn it up and knock me out
We could burn this room down, and then
Let it rain Champagne and make a mess
Of anything the fire's left
And get away, run away,
We'll change our names, fade away, baby, fade away
What a way to blow this night away

Don't speak, don't make a sound
I know how it goes, here it goes

Sugar sugar, whoa, you were so sweet
Remember all the things you said to me,
Hot like the Summer weather, our lips would melt
together
And every word would taste so sweet
But lately you have lost your touch
Maybe you're a sugar rush
And fast you fade away

Let it rain

Let it rain

Sugar sugar, whoa, you were so sweet
Remember all the things you said to me,
Hot like the Summer weather, our lips would melt
together
And every word would taste so sweet
But lately you have lost your touch
Maybe you're a sugar rush
And fast you fade away
