Here we go!

Lets start a fire
And burn this town down
Only to get caught in the act
Lets make a pact
Lets make a pact
To have each others backs
And Take the world by storm

Here's your cover story
We're getting thrown away
It's in the minds of the judges
That we cannot sway

Were stuck in this place
There's little chance to escape
Just biding our time
This moment is mine
To break the ties that bind
This moment is mine
To break the ties that bind
And take the power back

Here's your cover story
We're getting thrown away
It's in the minds of the judges
That we cannot

If I share my deepest thoughts
I might never
My problem said
One time again

I'll stand my ground!

You're getting reckless with your tongue
And people don't know how hard you puff
You'll blow so hard you'll blow the whole house down
You'll blow the god damn roof off
