Fired the first shot
But it won't be the last
I'm full speed ahead
You're running out of gas
Desperately trying to repeat the words
But sometimes the truth hurts
Accept the fact life has passed you by
You succumbed to the pressures
While I'm 'never say die'
Your fucking explanations
I refuse it
It's just excuses!

End of the line
You're out of time
We all have our cross to bear
And our axe to grind

The slit-guts (?) apparitions
Will haunt your dreams
You know that course through me (?)

Who the fuck are you to decide
How we choose to live our lives?
It's crystal clear
There are two sides!
Brinkmanship is a dangerous game
And this substance burns
Like acid rain
Siege through the border (?)
That's what it takes
Open the flood gates!

The slit-guts (?) apparitions
Will haunt your dreams
You know that course through me (?)

Mind is numb
Body goes weak
And blood drips from my mouth when I speak
You see the scars(?)

Endless sea of red
Reckless with words, yeah I'll say

Mercy!
Scream at the top of your lungs
Payback!
For the harm you've done

They say 'jealousy is crueler than the grave'
And a substance burns like acid rain!
It burns like acid rain!
