We've been leaving too many tracks
The last unit of the pack still seeks our bones
I thought that dominance meant more to these dogs

Stop dragging your feet
You want to end up like everyone else?
You want to end up like them?
You want to end up like everyone else?

This is my eternity, and I'm never backing down [x2]

Whatever made it easier for them to live

They'll feed themselves to death [x2]

I feel everything you've done is unspeakable
Dove wings were scattered about after the mass

No war song in my wake
You can have it all back
I couldn't aid in the hunt
You can have it all back

This is my eternity, and I'm never backing down [x2]

Whatever made it easier for them to live

They'll feed themselves to death [x2]

Hold your hands in the shape of a dove towards the
light
And see my twisted body in the shadows

No matter how battered
No matter how many broken bones [x2]

I'll haunt what's left
I'll haunt what's left in the shape of a cross on the side
of the road
In the shape of a cross on the side of the road

I'll haunt what's left [x4]
