"Oh don't leave" says the girl that left her ring and a note, a month ago today. And now you're on my doorstep asking for one more try. Oh I'd never wanna ever do this to you. Well I've never, never been such a fool. You so want me to want you.

Now you, you're kicking and you're screaming. You're beating down. Your head is on the ceiling girl. You must me so proud you're walking away from me. You've found that I'd never leave your side. And you'll never come back home. No!

So I say...

Woah woah - you know I'll never go through this again.

Woah woah - you thought you'd never see this happening.

Woah woah - and if I ever see your face again.

Woah woah - you know we'll do it all over again.

So let's start this scene again, you don't need a reason. We'll make up the stories, we'll make up your friends. Cause when they've all left you - we'll pretend. Oh I'd never wanna ever do this to you. Well I've never, never been such a fool. You so want me to want you.

The truth was that I kept on being a fool for you. Your head is on the ceiling girl.

Don't leave.

I never thought we'd be here.
