I'm cutting it short tonight  
Can't keep it going too much  
Too much longer for a change  
My mental change of state of a nightmare  
I knew we shouldn't fight here  
Lets all be real  
Quit blaming yourselves  
Portray and feel  
What I feel

Forsake the choices that I make  
No trace of nonsense, no embrace  
If I'm dying tonight  
(If I'm dying tonight)  
Then I'm dying a life you never lived  
Because this is who I am  
It's time to exceed  
All the limits to life and what it brings to me  
Everything that I see it brings life to me  
I'm soaring, exploring, my mind and thoughts

It's our choice to say,  
We want to live our lives this way  
We'll make it far  
It's our choice to say,  
We want to live our lives this way  
We'll make it far

I'm soaring, exploring, my mind and thoughts  
I know it's risky, I'm trembling, no coming back  
(I'm gone! ) I'm soaring, exploring, my mind and  
thoughts I know it's risky,

I'm trembling, no coming back I'm gone

Wake up and discover what it is to be alive  
And find your true will  
You'll never see his eyes  
But I will try  
Can't keep it, it going too much longer,  
Too much longer

I'm soaring, exploring, my mind and thoughts, I know  
it's risky  
(Can't keep it too much longer)  
(I'm soaring, exploring, my mind and thoughts, I know  
it's risky  
Can't keep it too much longer)  
I'm soaring, exploring, my mind and thoughts, I know  
it's risky  
Can't keep it too much longer  
We'll make it far!

It's our choice to say, we want to live our lives this way  
We'll make it far (We'll make it far)  
It's our choice to say, we want to live our lives this way  
(We'll make it far)  
It's our choice to say, we want to live our lives this way  
(We'll make it far)  
It's our choice to say, we want to live our lives this way  
(We'll make it far)  
It's our choice to say, we want to live our lives this way  
We'll make it far
