I saw her eyes and what they unfold
You've got me going now, as if I needed to know this
Well it was everything I needed to know
You've got me going now, as if I needed to know this
You've got me headed in the, the wrong direction
(You've got me going now, as if I needed to know this
Well it was everything I needed to know
You've got me going now, as if I needed to know this)
You've got me headed in the wrong way
Untie yourself cause you gotta get out of here right
now
Untie yourself cause you gotta get outta here right now

I said, I said right now
I said, I said right now
So now we're going to take this time screaming out my
lungs
Now we're going to take this time screaming out my
lungs
It's just a nightmare
We're never getting out of here
It's just a nightmare
Help us get out

You've got me going now, as if I needed to know this
Well it was everything I needed to know
You've got me going now, as if I needed to know this
You've got me headed in the, the wrong direction
(You've got me going now, as if I needed to know this
Well it was everything I needed to know
You've got me going now, as if I needed to know this)
You've got me headed in the wrong way

So now we're going to take this time screaming out my
lungs
So now we're going to take this time screaming out my
lungs
You're not different from us
Get ah old of yourself your not different
You're not different from us
Get a hold of yourself your not different from us

You're not different from us
Get ah old of yourself your not different
You're not different from us
Get a hold of yourself your not different

So now we're going to take this time screaming out my
lungs

Now, we're going to take this time screaming out my
lungs

I'm telling you it's not over yet

I'm telling you it's not over yet

I'm telling you it's not over yet

At the time it felt like it was worth it

For a time we had it all to us

But I knew, I knew that I would need you

For a time we had it all to us

But I knew, I knew...

Help us, get out!
