Cast your stones, cut to the bone  
Let me down it's nothing new  
I never had you in my corner  
I never had to  
Make sure this is what you wanted  
I've heard it all, it's nothing new  
You've got to crawl before you walk  
You never had to  
You showed me  
The face is just a front  
I guess it goes to show  
I can't trust anyone  
Someone change this broken record  
Rise and fall, it's curtain call  
With so much to lose  
This here is nothing new  
New pair of old worn shoes  
Where the hell do you get off?  
Pretending to know what I've been through  
We never needed you  
We never needed you  
We never needed you  
Pretending to know what I've been through
