There are some things that I can't face
There are some dreams that I can't chase
There is nothing that I can't face
There is no dream that I can't chase

There are people
Who love to laugh at you
See you fall
See you crawl

Find the words they say
Take your game away
See you fall
See you crawl

There are some who live above me
And they think so little of me
There is no one here above me
It doesn't matter what you're thinking of me

There are people
Who love to laugh you
See you fall
See you crawl
Find the words they say
Take your game away
See you fall
See you crawl

There are people
Who love to laugh at you
See you fall
See you crawl

Find the words they say
Take your game away
See you fall
See you crawl

See you crawl
