"I Wanna Be Your Man"

I want to get up every morning just a giving You the
glory like I mean it
Be a better lover to my friends and all the others like I
mean it
Always do the best that I can, try a little harder, well
what I mean is
I wanna be Your man

I wanna have a heart of gladness in the joy and in the
sadness like I mean it
(Like he means it)
Always aim to please and even love my enemies just
like I mean it
(Like he means it)
Give You the best that I got, I know it's not enough but
then I'll never have enough but still
I wanna be Your man

BRIDGE

And when the trials start to pile I'll still try to crack a
smile
And thank You for Your wonderful grace
With Your love in my heart and the wind at my back I
just might win the race
