Oh it's Halloween!

Every night to me is Halloween  
Like an ancient scene  
You know just what I mean

Halloween you are my pride  
Halloween not just a dream

The moon is full  
Another perfect day has began  
Like a demon's eye, that devil's eye  
Will we ever die

Halloween you are my pride  
Halloween not just a dream

Every night will be another evil scene  
Like in horror dreams I want  
I command you to scream

Halloween you are my pride  
Halloween not just a dream

Halloween, halloween
